Scorecards

See also: State legislative scorecards and State legislative scorecards in Maine

A scorecard evaluates a legislator's voting record. Its purpose is to inform voters about the legislator's political positions. Because scorecards have varying purposes and methodologies, each report should be considered on its own merits. For example, an advocacy group's scorecard may assess a legislator's voting record on one issue while a state chamber of commerce's scorecard may assess a legislator's voting record on many issues.

Ballotpedia is in the process of developing an encyclopedia list of political scorecards. Some states have a limited number of available scorecards or scorecards produced only by select groups. A Ballotpedia goal is to incorporate all available scorecards regardless of ideology or number.
