Scorecards

A scorecard evaluates a legislator's voting record. Its purpose is to inform voters about the legislator's political positions. Because legislators cast hundreds of votes every year, it is difficult for voters to keep track of their legislators' voting records. Scorecards provide a quick and easy way to evaluate a legislator's voting record. Ideally, a scorecard's evaluation of a legislator's voting record should be in line with his or her ideology.

Ballotpedia's goal is the process of developing an encyclopedia for all political scorecards. Some states have a limited number of available scorecards or scorecards produced by only one group. Ballotpedia's goal is to provide a comprehensive list of all scorecards regardless of ideology or number.
