Scorecards

See also: State legislature scorecards and State legislative scorecards in Indiana

A scorecard evaluates a legislator's voting record. Its purpose is to inform voters about the legislator's political positions. Because scorecards have varying purposes and methodologies, each report should be considered on its own merits. For example, an advocacy group's scorecard may assess a legislator's voting record on one issue while a state chamber of commerce's scorecard may assess a legislator's entire record.

Ballotpedia is in the process of building a comprehensive list of published scorecards. Some states have a limited number of available scorecards or scorecards produced only by select groups. It is Ballotpedia's goal to incorporate all available scorecards regardless of ideology or number.
