Scorecards

See also *State legislature scorecards* and *State legislative scorecards in Pennsylvania*

A scorecard evaluates a legislator's voting record. Its purpose is to inform voters about the legislator's political positions. Because scorecards have varying purposes and methodologies, each report card may be considered on its own merits. For example, an advocacy group's scorecard may assess a legislator's voting record on one issue while a state newspaper's scorecard may evaluate the voting record on a variety of issues.

Ballotpedia is in the process of developing an encyclopedic list of published scorecards. Some states have a limited number of available scorecards, while others have produced only by select groups. Ballotpedia's goal is to include all available scorecards regardless of ideology or number.
